

Press release from Crowd Company 2nd of September 2009:

CHOREOSOUND 09

The artistic lab on composition of contemporary dance & music

—The idea of Choreosound originates in a wish to artistically deepen my knowledge of music in relation to dance and vice versa, says Swedish choreographer Marika Hedemyr. After several encounters and discussions with people within this field I felt an enormous positive reaction and was met with a great deal of enthusiasm regarding the project. We want to meet, discuss, work and be inspired.

—Today I can proudly present Choreosound 09 - where all this will happen, says Artistic Director Marika Hedemyr!

—The participants are some of the leading acts within contemporary dance and music and represent a good mix of experiences and perspectives. During the lab week we will be working together during the lab week, creating a variety of scetches and start several discussions.

Beginning September 24th in Gothenburg, Sweden, about 40 participants, consisting of composers, choreographers, dancers and musicians will gather for the artistic lab Choreosound 09.

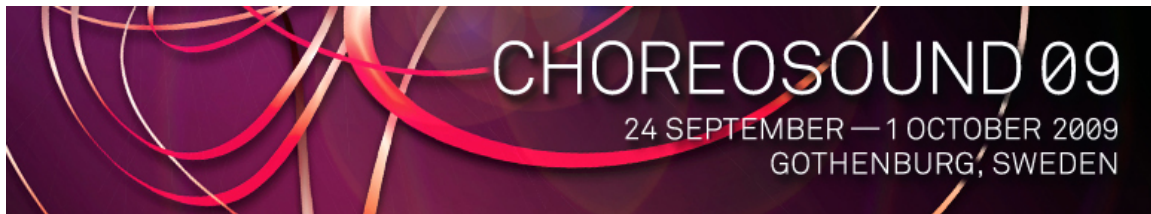

On the final evening of Choreosound 09 we open up for everybody in a Public Demo on 1st of October, 7pm at Pustervik in Gothenburg. Here the participants will together on stage show extracts and pieces of what has been created during the Lab. Movements, sounds, discussions and reflections will be shared with the audience

The complete list of participants you can find on page 2.

Choreosound 09 is a co-production between Crowd Company and the Department of Arts and Cultural Development, Västra Götalandsregionen, represented by OPEN and Danskotoret.
